To the Management of Georgia-Pacific Corporation

We have audited management's assertion set out in the attached letters, that Georgia-Pacific Corporation has met the requirements of the Sustainable Forestry Initiative® (SFI®) Standard [2005–2009 Edition] (the "SFI® Standard") for their procurement programs for the Industrial Wood Products and Lumber Division, the Wood and Fiber Supply Division and pulp procurement for North America as of May 1, 2006. Management is responsible for Georgia-Pacific Corporation meeting these requirements. Our responsibility is to express an opinion on management's assertion that Georgia-Pacific Corporation met these requirements, based on our audit. The SFI® Standard can be found at www.aboutsfb.org.

Our audit was conducted in accordance with the ISO 19011:2002 management system auditing standard and, accordingly, included examining, on a sample basis, evidence supporting management's assertion that Georgia-Pacific Corporation met the requirements of the SFI® Standard, evaluating on an overall basis whether the requirements were met, and performing such other procedures as we considered necessary in the circumstances. We planned and performed our work in order to obtain reasonable, rather than absolute, assurance with respect to the information examined. We believe our work provides a reasonable basis for our opinion.

In our opinion, Georgia-Pacific Corporation met, in all material respects, the requirements of the SFI® Standard as of May 1, 2006.
