

Dear Submitter:

Thank you for your interest in submitting an idea to Georgia-Pacific LLC ("GP"). GP is interested in evaluating patented and published non-provisional patent-pending inventions which originate outside the company. In order to protect both your rights and GP's, it is required that you review and agree to the Terms and Conditions below before submitting your granted patent or non-provisional patent publication to GP. Please note that you are not obligated to disclose any information by agreeing to these terms. However, the patent document you choose to disclose must be non-confidential and GP shall have unencumbered use thereof.

Should you agree to the Terms and Conditions below, please provide the granted patent number or patent publication number for review in the space below.

TERMS & CONDITIONS

(1) Only non-confidential information is included in my submission. All information disclosed to GP in my submission will be considered as non-confidential public information.

(2) I will be contacted by GP only if GP is interested in further discussions about my submission. All information disclosed in such further discussions will also be non-confidential. If, in the future, both GP and I decide that we need to discuss confidential information we can do so by first entering into a confidentiality agreement. I understand that GP will only receive and treat information as confidential if the information is covered by a formal, written confidentiality agreement signed by GP prior to the time it is disclosed to GP.

(3) I recognize that GP is always working on ideas, products, processes and technologies for use in new and existing products. Accordingly, I acknowledge that GP may already have conceived of, developed, practiced or filed patent applications on the same subject matter in the submission I am providing.

(4) I will rely solely on my Intellectual Property Rights ("IP Rights") to protect information included with my submission. Types of IP Rights include: patents, trademarks, copyrights and design registrations (design patents).

(5) If I am a commercial supplier/vendor relying on expertise or tangible assets to provide unique services or capability, I will not disclose any confidential information pertaining to my expertise or tangible assets to GP unless and until a formal confidentiality agreement is signed by both me and GP. I understand that a confidentiality agreement will not prevent any party from independently developing the same or similar expertise or physical assets and offering their services to any other party (including, but not limited to GP). I understand that obtaining IP Rights is the only way to legally prohibit another party from having rights to commercially use independently developed technology or capability.

(6) I understand GP is not obligated to consider my submission or utilize or attempt to utilize the contents thereof in a product commercial or otherwise.

(7) I am not granting GP any commercial rights to my IP Rights by my submission. However, I understand that any aspect of my submission that is not protected by my valid, enforceable IP Rights or a written, formal contract may be commercially used by any third party, including GP.

(8) Only persons eighteen (18) years or older may make submissions. By agreeing to these terms and conditions, I warrant and represent that I am 18 years or older.

(9) I warrant and represent that to the best of my knowledge I am legally free to make this submission and that I am either the owner of the submission or the authorized representative of the owner. I further warrant and represent that my provision of the submission will not breach any confidentiality agreement between me and a third party.

(10) I understand and agree that there are no other agreements or understandings that apply to my submission, that any prior agreements or understandings are superseded, and that no modifications or exceptions to these Terms and Conditions will apply unless agreed to by both myself and GP in a formal, written contract.
